

Majestic

Majestic attaches great importance to sustainability

Majestic has been synonymous with harvest-fresh canned fruits and vegetables from around the world for over 50 years.

Thanks to our long-standing relationships with our suppliers, we can guarantee consistently high quality. The careful selection of the best raw materials is our greatest concern and ensures that Majestic has always been appreciated by Swiss consumers.

Majestic is the only brand in Switzerland to offer a comprehensive range of long-life fruit, vegetable, mushroom and vinegar preserves for the retail, food service and industrial sectors.

Sustainability plays an important role for the Majestic brand. Products are sourced from European origins whenever possible.

Peaches halves - syrup

Article: 14200

Carton: 6 pieces

Ethnicity: No subdivision
Product group: preserves - fruit
Commodity group: PEACH

Country of production: European Union

Ingredients / nutrition facts:
