

Mr. Mallo

The marshmallow expert

Marshmallows are one of the earliest types of sweets known to mankind. The Egyptians were known to make sweets from the sap of the root of the marshmallow plant (*Althaea officinalis*).

Since the 1950s, marshmallows have been made on an industrial scale with the three main ingredients of sugar, glucose syrup and gelatine.

Mr. Mallo - Van Damme guarantees fluffy marshmallows thanks to fully automated, state-of-the-art production lines. Founded in 1907 as an artisan production company, Mr. Mallo Group now produces over 20.000 tonnes of marshmallows annually through its four state-of-the-art production lines.

Mr. Mallo is the perfect partner for retailers around the globe for their private label marshmallow projects.
