

Poshi

Power of simple healthy ingredients

Our company, headquartered in Miami, USA, makes healthy foods specializing in providing high quality products that are **vegan or vegetarian, gluten free, non-gmo, all natural** and **free of preservatives**.

Our journey began over 10 years ago with the single idea of providing deliciously healthy foods accessible to everyone. As an entrepreneurial and dynamic company, we quickly grew our market share from regional to national food retail as well as food service market throughout USA and later expanded our business internationally.

We created Poshi because we all know that vegetables are great for you and delicious - Yet there are so few **vegetable snack** options. For the first time, your favorite prepared vegetables are now available and perfectly marinated in an easy open pouch so you can enjoy a healthy, flavorful, stomach satisfying, guilt-free experience on the go!
